# REGISTRATION FIGURES FOR FACULTY INCREASED TO MEET DEMAND

## B.S.T.C. 75th Anniversary Publication To Be Released Oct. 10

On October 10th, 1946, "New York State College for Teachers—A History—1871-1946" will be released. This first publication of progress includes chapters on classroom, personalities, college traditions, student activities, and alumni.

Of particular interest to organization members will be two chapters, written by Mr. Andrew Grahan of the English Department, dealing with the histories of the various organizations on campus. A chapter, "The Years Ahead," written by Dr. Herman A. Weaver, Assistant Commissioner for Education.

### History Written and Illustrated by Faculty

The history was prepared with uniting effort by the Editorial Committee, composed of Dr. Kate W. Wofford, Dr. Harry W. Rockwell, Dr. Charles Meisner, and Mr. Grahan. Members of the Art Education faculty made the drawings of the college buildings, beginning with the first building of the Normal School, opened on October 25, 1871. Illustrations of the buildings of the future are also included.

Students will enjoy owning this book as an inexpensive but valuable memento of college life, and as a history of teacher education in New York State.

### Limited Supply Only \$1.00 a Copy

Many students placed their orders with the College Co-op during the first registration. Only 1,000 copies are available in the first printing, to be reprinted in the fall so that if you have not yet ordered yours, make haste. Remember that the alumni, as well as the 1,390 undergraduate, will want copies. The Co-op will accept orders as long as the supply lasts.

If the demand is high, a second printing will be made, but when the supply is exhausted, it may be years before there is another printing. The cost is very low—only \$1.00—and another history of the college will not be compiled for another twenty-five years, so none of us can afford to pass up this opportunity.

## Community Chest Drive Gets Underway

Why?

In all periods of reconstruction the demands of an area require the help of a responsible citizenship. The Community Chest is a combination of 46 agencies of social welfare which divide all donations according to the needs of the respective areas.

Each Cent County dollar will be converted into 8 parts which will take care of Character Building Agencies, Care and Protection of Children, Service to Families, Health, Community Service, USO and National Agencies, Administration and Campaign. The Community Chest is the natural meeting point of citizens and needy federations; its emblem is a red feather and its purpose to raise \$1,043,000 for human need. The position of NYSC in this Red Feather Drive is conspicuous for our campaign is begun before the county drive and because we have never failed to exceed our quota.

### State Must Work To Reach \$11,000 Goal

Although the county chairman has placed our minimum at \$1,000, our college drive is \$1 per person. Each student must recognize his individual responsibility.

Progress will be noted by the raising of color on the chart in the forth. Make it a progress that we'll be proud to have the city watch.

### Chairman Announced

College Chairman—Dr. Reuben Ebert.

General Chairman—Major Ellen Siebert.

Faculty Chairman—Dr. Peterson. Art Chairman—Angie Morahan.

Publicity Chairman—Marjorie Grotka.

Seniors—Chuckie Miller.

Junior—Helen James.

Sophomore—Pat Kelly.

Ind. Arts—Dev Ross.

## Registration Exceeds State Quota by 388

The formal opening of the academic year at the New York State College for Teachers at Buffalo on September 9, was an assembly of students numbering 1,388. A quota of 1,000 registrations set by the State Education Department, in effect for the last decade, was surpassed by the unprecedented number of students, and it is believed the quota will never return to its former level.

State Teachers College at Albany announced a registration of 1,400, and Buffalo's 1,388 gave these two schools the largest registration of all Teachers College in the state.

Because of the increasing demand for higher education by high school students and veterans and the inability of colleges to meet these demands, New York State legislative action has brought into being, in upstate areas, three new colleges for re-entrants. Champlain College at Plattsburgh, Mohawk College at Utica, and SUNY College at the former Sampson Naval Base are to accommodate 1,400 students; to date less than half of this figure has been realized.

### The Record Introduces New Faculty

The high registration at Buffalo indicated the need of additional instructors. The Record has felt the need of printing a thumb nail report of our new faculty to help us to know them better, faster.

by NANCY KAMPRATH

Assignment: Profile of the Co-ops

Problem: Description of nineteen REAL individuals in two short columns.

We will approach the problem in a scientific manner, proceeding from the known to the unknown. Of course, you are ALL (then you know) well acquainted with the Co-op as an institution. But let's go down and see if we can discover what goes on behind scenes.

As we enter the door we are first impressed by the CROWDS which prove our Co-op's importance and popularity, then by the atmosphere within, created by our talented artists in charge of decoration, JAN WHALEY, by the boys' indecisive stunts of blue painted on various shades and colors as by A.T. DEMBOWSKI and LEO FENAR, by the happy meals of ALL OF US.

After shouting amphetamines, and there is plenty of it, we can take the Co-op apart (figuratively, please) and examine its pieces by the pieces, section by section, department by department, Co-op by Co-op. On our left is the jewelry case, in which we find clever displays arranged by George and the lovely Madeline Fetterman and Ferro, Bill, Mairie, Mary Alice, Gero, Sel, Dave, Leone, Shaula, and Billie (can't separate 'em even in print). Double, Jim, Pat, Jen and Ivo. We have been introduced to it. It is up to you to move it. We are disoriented in two centuries—individuals and a group.

People are slaves to habit! Why start at the twelve noon—begin at the bottom and work your way up...

Johnny Michaels' regal manner and silver appearance at the coronation. His speech wasn't edited but his crown was stolen.

Exchange department Peg Martin with Tom Farley's ring. Mary Jane Holland, class of '46, with a letter from Jameson for the March Glee.

They studied John Gray to eliminate his number only to find dodging the storm ahead over that the brother had best to win at the art school.

The team has shown much promise and a fine spirit. Despite the fact that they do most of their practice running in the state, so far have suffered any serious injury through collisions with low hanging branches or unusual tree trunks.

The season continues on November 23, when we run the University of Tennessee letter on November 28, when our team will run the Y.M.C.A. "rally day" new down the Y.M.C.A. on November 29, at 9:45 A. ## Swim Meet Scheduled for 7:30 P. M.; Teams Meet in S. C. Gym Tonight

The McMaster University swimming team will meet State today at 7:30 in the pool; Tom Tierney, who is handling the first "post-war" swim, is not far from his best of the season. It is expected that Tierney and Capt. Michaels will win the breast stroke; Solas, Gray, Burkhardt and Cohen, the backstroke; Scholten, Sanders, Harrigan, Fawcett, Schmidt and Mosen, the freestyle; Jerry Grogan and Clark Webb (two year star) will lead down the diving end of the meet. Tierney has worked hard with the team and we are sure that his efforts will pay off today. Like all athletes who are dedicated to swim the margins of points by which we will take the meet.

Only State students will be admitted upon presentation of the Athletic Association card.

This game will be the first met of our squad in the current season. State has shown up extremely well in the "closed" intercollegiate games of the local teams. Coach Cory has swung along with the trend in basketball coaching by carrying a large squad and using a series of combinations on the floor rather than the outdated method of pinning the hopes of winning on five men. The game today, held to "fast-break" snappy-up plays and split-second timing calls for a playing team of twenty to twenty-five men rather than a select five. It has been proven in the past five years that it is better basketball strategy to have five fresh men on the floor at all times rather than to enter the last quarter with five tired stars.

The meeting time is 8:00 in the college gym. Every student is eligible to attend and will be accompanied at the door upon presentation of his Athletic Association card. No one will be admitted to the game without one. Dinning will follow the game.

Tonight, on campus, State meets McMaster University in the opening game of the season. McMaster brings to the campus one of the better teams in Ontario Province. On one side McMaster will put forth one of the best squads ever to take the floor for Buffalo State.

In a last minute interview with Coach Cory it was learned that many of the boys who were mentioned in this column recently will be active players. Vande, Bickel and Capt. Schaefer will split the honors in the guard spots. Parsons, Stenhouse, Tinkland and Hoffman round out the forward positions. Wascott, Hander and Herman will be used in the center positions.

## Letters to the Editor

(Continued from page 2)

In cooperation with the New York State Fish Hatchery at Randolph, New York, Mrs. Myrtle Woodard, a general elementary student, is conducting an experiment to see if trout will survive in a small indoor tank filled with Buffalo's chlorinated water, which is several degrees warmer than they are accustomed to.

To date, the trout have progressed remarkably well. As a matter of fact, one of them has already reached the legal length of seven inches and is still growing. The others also have done well even though they haven't yet reached the legal limit in length, for all trout do not grow at the same rate. (All the trout are the same age.)

"Thanks to Mrs. Woodard for bringing this interesting and educational experiment to our college."

June S. Ellis.

## New York State Teachers Association Crusades — for the Children, their Heritage — for the Teachers, a Living Wage

### Art. Ed. Student Photographs France

#### Exhibit Displayed in Library Case

Mr. Roger Easton, an art education student, has on exhibit in the library display case, a collection of photographs taken in France with a captured German camera.

The photographs are of Paris, Chartres, Lenats, and Maseille, famous cathedral cities of France. This exhibit on France today is especially attractive to art students since the closeups of the beautiful cathedrals can be studied in detail.

While serving with the famous "Hell on Wheels" division which pushed Field Marshal Rommel out of North Africa, Mr. Easton took photographs whenever weather conditions and the war permitted.

Traveling through nine countries and finding Germany and France the most interesting, Easton described the people of Europe as being "alive, exciting and relaxed all at the same time."

An exhibit on Germany will follow this collection of photographs on France TODAY.

### Dean of Women Investigates State Dormitory Situation

Returning from her visit to various campuses throughout the state, Dean Reed reports great interest in student residences as social laboratories. Especially important is the emphasis placed on the study-bedroom wherein the occupant spends long hours at her desk and in equally valuable hours in talking over the day's work with fellow-students. This requires space, comfortable furnishings, storage area and artistic decorations in her campus home.

In visiting Dr. Harriet Hayes, Dean Reed had the opportunity of seeing the numerous architects' blue prints that have been submitted for counsel. Dr. Hayes is author of the standard text, "Planning Residence Halls," and from long years of experience her invaluable data as to adequate size of rooms, amount of social space needed by a group, food and housekeeping services, recreation figures on expenses for administration,

At Vassar it is especially interesting to note the length of time campus buildings are used for student residence and how important it is to plan them adequately before construction. In Albany the residence halls have a number of the newest and best features of design. One particular item is the suite prepared by the Head of Residence with a separate living room and kitchenette for service of refreshments to small groups such as the Residence council.

At Cornell the new Class Day hall has an unusually generous area of social space—modernistic living room, gay little bus parking room, lounge rooms, suit lounges and many a spot in which to press, to launder or to brew a hot chocolate. Miss Garthe, N.Y.S.T.A. Representative, spoke to the entire student body in an assembly on Friday, February 7. In the short time she spoke she emphasized the importance of student action and organization in the association's crusade. She declared that it is the present undergraduates at New York Teachers Colleges who will be affected by the legislation in Albany. Students can encourage friends, relatives and parents to write letters to the Legislature.

During The Record interview with Miss Garthe she presented the reporter with information concerning student organization and support of the crusade. The Association has prepared editorials, radio manuscripts and reports on the state education program.

Following Miss Garthe's speech, Mary Frances Hackford, president of S. C. asked for student participation in the crusade. She asked the students, "Do you want to do something about the situation?" and when a positive response was received from the audience, she proceeded with a plan. Addresses of assemblies, congresses and the governor were passed through the auditorium and students agreed to write to their representatives urging passage of the legislation. Out-of-town students are requested to secure the names of their representatives to the State Legislature. Those names presented in assembly represent only a small percentage of the New York State Legislature.

All these colleges find it particularly urgent in the needs of sound proof aids in wall construction, floor surfaces and door ventilators. A student expects modern science to aid her in establishing privacy for study when once the door is closed and themes or art sketches demand that she undisturbedly attend to her work.

### Representative Urges Faculty and Student Support of Permanent Teacher Legislation

On February 1, Miss Edith L. Garthe, a field worker of the New York State Teachers Association, spoke to the faculty here. A conference was held with Mr. Harry C. Johnson, delegates for New York State College for Teachers at Buffalo to the Association legislative body. Mr. Johnson represents the college on the Public Relations Committee of the Western Zone.

Miss Garthe reported at the 10:30 meeting that the New York State Teachers Association has embarked on a crusade for a living wage for teachers. The organization's forceful slogan urges "for the children, their learning, for the teachers, a living wage."

The crusade's purpose is to promote and encourage the passage of the Young-Milrose Salary and State Aid Bills during this session of the Legislature. The Salary Bill provides a minimum of \$2,400 per year with eight annual increments of \$150 each for all New York State teachers. The State Aid Bill is intended to include a basic minimum program of \$175 per elementary pupil and \$225 per high school pupil. The total cost for the state, pointed out Miss Garthe, with the enactment of the legislation would be \$100,000,000. Feels Emergency Program to be Unsatisfactory to Teachers

The Association strongly feels that the present emergency program of \$32,000,000 is not satisfactory to either teachers or parents because of its temporary nature. After March 31, 1948, when the present legislation ceases to be in effect, the former minimum salary schedule of \$1,200 will again be in effect. "Is this a living wage for teachers?" asked Miss Garthe.

of adequate state aid to provide salaries attractive enough to bring new blood into the teaching profession. "The future of America," she said, "depends on the kind and number of teachers we have in the next few years." By 1950, if the present rate continues, the state will lack 7,000 urgently needed elementary teachers and 2,000 secondary teachers. This year there will be approximately 400 State Teachers College graduates, Suffolk and Nassau Counties alone will need more teachers than this.

### Association Is Shearhead for Public

In her address, Miss Garthe informed the faculty that the crusade for a living wage is an effort to convert favorable public opinion into action to provide and promote passage of legislation. The Association is acting as a spearhead for the public. It is not only teachers, must make contact with the state senators and assemblymen. The public's desire is to have good schools.

The Association's first task is to inform the public why the temporary measure is unsatisfactory. Its second great task is to explain, through a constructive program, why it is not only necessary, but urgent that citizens act quickly to secure passage of the legislation.

### Study Rooms Open To Students

Because of crowded conditions in the Library-Hospital has announced the opening of student "study rooms." These rooms are to be open daily according to the following schedule: Monday, 214 from 11:30 a. m. to 1:30 p. m. and Main 218 from 10:30 a. m. to 11:30 a. m.

No reserve books are to be used in these rooms.

There will be no supervision in these rooms and students are asked to co-operate in keeping these rooms a place for study rather than social gatherings.

Students have long lamented the fact that there has been too much supervision; this is exactly what the students have asked for and the success or failure of this project rests with them.

Tickets are \$1.00 per couple and have been on sale this week in Student Center. The affair will be semi-formal, so girls, wear your most glamorous frock, or your prettiest date dress, whichever you prefer.

## Campus Chapter Of AAUP Adopts Resolutions

The American Association of University Professors Chapter at the New York State College for Teachers at Buffalo wishes to be associated with the following resolutions:

1. We support wholeheartedly the Young-Alumni Bill and the accompanying legislation providing salary increases through the report channels of state aid, and urge the General Assembly, and passage pending the present legislative session.

2. We deplore the conditions in Buffalo which have necessitated the absence of teachers from their classes in protest of such conditions, which include among others: 1. Inadequate salaries, 2. The withholding of contracts, and 3. Absenteeism teachers.

3. We support morally, professionally, and financially the efforts of the teachers in Buffalo who are forced to make public protest in order to call the attention of the people of this city and state to their sorry plight.

4. We condemn the proposed legislation which singles out the teaching group for punitive measures in connection with strike activities.

5. We urge the Mayor, members of the Board of Education, the Common Council and the Legislature to take immediate steps to remedy the critical situation now existing in the public schools of Buffalo.

6. The Secretary of this chapter of the American Association of University Professors shall be instructed to send copies of these resolutions to the key persons mentioned in resolution five, the Buffalo Teachers Federation, the newspapers, the radio stations, and others concerned.

## A.K.K. Announces Contest

In an effort to raise the standards of the posters advertising campus events, Art Kraft is sponsoring a poster contest. Each organization which places a poster on one of the college bulletin boards is automatically entering the contest. A.K.K. is removing all large posters from bulletin boards after the events they advertise have passed.

These posters are being collected and at the close of the school year prizes will be offered for those posters which A.K.K. considers best. Prizes judging will be according to these qualifications: Neatness, accuracy, and relation to the event being advertised. Prizes will be awarded to that individual who makes the poster and to the organization whose event the poster is advertising.

### Alumni Landed

Word has been received through Dean Hollister of Cornell College of Engineering that David L. Cowie, Jr., has won a high place on the Dean's list at Cornell University. Mr. Cowie is a fourth year student in the school of Civil Engineering.

Mr. Cowie graduated from State Teachers in the class of 1941. He was a member of Phi Psi, Mu Psi, and Sigma Chi and Student Council.

Quoting from Dean Hollister's letter to Mr. Cowie: "The high scholastic record of this student is a credit to the college and to the history of the institution and to the history of teacher education in a broad degree."

"The article went on to say that college and university histories give a wealth of material for studying the history of higher education in general. It is possible for a small institution to produce a history that will have some 'significance' considerable to its readers and to have so much historical value as to be a part of a large institution."

Going on still further, the article said: "It would be no much to ask for intelligent historians from every institution. It is hoped that more colleges and universities will publish their histories so that their experiences in education can be carefully studied and passed on to sister institutions for historical and human interest values."

Based on Examination and Evaluation

In publishing its history, New York State College for Teachers at Buffalo has given an outstanding example of "based on examination and evaluation" that will be of continuing interest to institutions of higher learning and to a general history for those connected with the college.

### THEATRE REVIEW

By Roger Easton

Expanding more of his Slavonic theory, George Bernard Shaw has written a play in the play *Barbarians*. It is now playing at Jaws Kender's Studio Theatre.

Barbara is the daughter of a wealthy munitions manufacturer. She always had everything she wanted—money, education, clothes and a husband. She was a spoiled girl, with strong religious convictions, she joins the Salvation Army to help save men's souls. She acquires the rank of major.

The supporting players are knocked completely out under Barbara's ideas when the realization comes that she is the Salvation Army, which is employed to save men's souls, is financed with money from the devil.

Under the director and initiation dancing was held until eleven o'clock.

## The Unexpected

by Lawrence Easton

The afternoon papers carried the news that the nation's most of their chance in assassination headlines—"Man Threatens to Jump Off Empire State Building."

Who he was, no one knew. Newspaper writers described him as about thirty years of age, leanly looking, typical of the young business men of this country, and seemingly a serious sort of fellow. But no one really knew him—that is, knew what was going on in his mind. He had told the newspaper from a safe distance—the reason for his action.

He had said that he was disgusted with the world and the life in general. He told them that they could just glance at the glowing headlines of their own newspapers and find the reason; the headlines shouting world strife, murder, robbery, and the best of all, "Man Threatens to Jump Off Empire State Building."

I don't suppose that there is a better time to start a new column than on the first day of Spring. Perhaps, it will constantly be fraught with the symbolism of this Spring season.

There is quite a serious purpose behind the idea of starting this particular column. For a long time *The Record* has been seeking a consistent medium for presenting news of the development in our chosen profession. True, articles and editorials have appeared from time to time, and they have, however, succeeded in creating an awareness about the conditions in the field.

However, these writings have been somewhat limited in that they have dealt with a dramatic and explosive news situation. *The Record* staff feels the necessity of preserving many types of data—news, pending legislation, both national and state-wide, and developments affecting the profession. Such information is available, and certainly the smallest service which a newspaper in a teachers college can perform is to bring as many of these facts to its readers as is possible.

I like the idea of using a rather informal column for the presentation of this information. Occasionally I will allow myself the luxury of personal comment, and if I get "stuffy" or narrow, I hope you will not be backward in letting me know. I am sure you won't mind if I refrain from injecting some of the more "philosophical concepts."

Much of the success of this column depends upon the readers of *The Record*, for the field we are attempting to cover is so large in scope that, without the willing force of reader opinion, I might miss the things you are most interested in.

Our first column will feature an interview with Dr. Harry Rockwell, president of the college. It is a fitting inauguration since he is a man prominent in the educational field and highly capable of helping us to obtain a true picture.

I am sure our future relationships will be pleasant and rich.

Sincerely yours,

ARTHUR JOHN MILNER, '50

The Editors have been much concerned with the criticisms made of *The Record*. It was once felt that the basic trouble lay with the lack of interest on the part of the student body. After much deliberation, discussion and survey, it was decided that *The Record* needed a new type of organization. This called for the creation of several new departments and the appointment of several new editors. The staff is happy to announce the appointment of the following:

Managing Editor: Peg Byrd  
News Editor: Larry Easton  
Feature Editor: Roger Easton

With your co-operation and constructive criticism, *The Record* will continue to become more and more a reflection of student activities and opinions.

TWE EDDORS

Tom Karwaki

The Question—What subjects do you think should be added to the CTC curricula?

The Subjects—

Arlene Hoerner, Jr. GE

A course in "Preparation for Marriage" would be very well received on campus. It should be part of all students as an elective. She should cover more than the present Home Ec. course in Family Relations does. S. C. A. has worked for a course of this type. The important thing is to get a qualified instructor.

Evelyn Childs, Speech Home Ec.

I think the curricula should include a course in sex education. It

At Elmira College the Octogon reports that several students have conducted a poll to determine the outside interests of the faculty at Elmira College. They found that in 60% of the cases manual activity overruled intellectual pursuits. Some of the other responses were: building more walls, raising rattle babies.

would be as worthwhile as any we have now.

Dr. Albrecht, Prof. of Sociology

A required course in Economics would be advisable for all persons who intend to be teachers. Difficult economic problems exist in the world today and a teacher should have a background in economics so as to understand these.

Ruth Podolyn, PE GE

I think that an elective in Education for Marriage will be favorably received by the students and would help to combat the divorce problem, but otherwise I think there are enough courses at STC. Heaven forbid that we have any more required courses.

Rosemarie Silveroll, Home Ec.

In my opinion, "I'm a genius, you know, even if my students don't recognize that fact" a course in Humor would be just what everyone needs right now, since everyone is feeling their finger nails over coming exams, word problems, etc. Don't you think it would be sensational to teach people how to laugh and look at the funny side of things?

Mr. Vail  
More electives in science, training supervisors of science for the grade schools. Electives should cover subjects of astronomy, chemistry, physics.

## THEATRE REVIEW

By Chris Nagel

From the time Julia Jones opened his stage show conducting the orchestra with a feather duster and a last number (Cocktail for Two) the audience at Shu's Buffalo was happily entertained. The City Slickers in their "Maiden Repetition Review" were reminiscent of a waltz and at times of a circus.

Dr. Horatio O. Birdham—imitator, Doodie Weaver, and a midge-coordinator were the most hilarious members of the crew.

Over the weekend—into the schedule, so to speak, a more turnover of the crowd, each stage show was shortened. I missed "Holiday for Strings" and an entire act—Alfred Capelle who did "Glow Worms." I recommend that when one is planning to see a stage production of this kind, he attend the weekday performances.

"Fear in the Night" which dealt with hypnosis and murder. The picture steadily improved in interest value after a first beginning.

Starting Thursday the offering will be "The Macomber Affair" by Ernest Hemingway with Gregory Peck. Carmen Cavallaro is the next stage attraction.

## Musical Organizations Present Concert Tonight in College Auditorium

In bringing with a State tradition, the musical organizations on campus, the A Cappella Choir, the Men's Glee Club, the Freshman Women's Glee Club and the Band, will present their annual Spring concert tonight in the college auditorium at 8:30.

Many demands have been made on these organizations this year, but they have been met enthusiastically with all request arrangements made with touring performances.

The A Cappella Choir and the Men's Glee Club, enjoying a successful season directed by Mr. Boyd, made many appearances before the college groups of the city. They gave a concert at Genesee State Teachers College and also appeared on several of State programs.

Winning much popular acclaim for its work in the college Christmas season, the A Cappella Choir, the Freshman Women's Glee Club, directed by Miss McMahon, will climax its music season with tonight's Spring Musical.

Under the direction of Mr. Coghill, the college band, reorganized this year, has contributed much to the Convocation Programs and at various other occasions.

Also on the program will be Jean Miller, harpist, and Bert Shaw, soprano.

Mr. Boyd, head of the music department, commenting on tonight's concert, said, "We have every reason to believe that it will be an enjoyable program and we invite the members of the student body and the faculty to attend."

The "Play I Remember Mama" is well worth seeing. There are about twenty settings and many "props" required in this delightful comedy, but the extra work in elaborate production at the hands is well worth the trouble.

The play itself is an excellent piece of theatrical craftsmanship. "I Remember Mama" was adapted by John Van Drusen from Kathryn Forbes' book, "Mama's Bank Account." Recently the comedy was produced on Broadway, produced by Rogers and Hammerstein II and Columbia. It was a success as a tremendous success with both the critics and the public.

The story concerns a Norwegian family in America. Mama is a tough, no-nonsense, practical woman who runs the household and the family. Her husband, Papa, is a weak, sentimental, and easily manipulated man. The family has its comic scenes, but the play is a tragedy in the end.

The cast of "I Remember Mama" includes the capable direction of Miss Mina Gosselin is as follows:

Jack Schloerb

by Helen Pipikil

Have you met Student Council's cheering president, yet? He's that handsome, likable Jack Schloerb who's Spalding Jack of STC. A faithful Coop worker, he can be seen just about everywhere on the floor, which just goes to show that the one, two, are demagogically inclined. Jack is also president of Sigma Tau Gamma and a member of AKK and SCA.

Jack entered State in 1941 but left after two years for a try at the Navy. Hmm, you guessed right—Jack looks good in blue. He studied radio and electronics in the Navy School at Wright College in Chicago and at Texas A. M. & A. After three years with a rating of first class petty officer, he was discharged and returned to civilian life—and State.

Swimming is Jack's favorite sport—especially in the summer-time when he can combine it with swimming with plenty of pinks and cake.

Speaking about cake and sweet

—Billie Nichols fills in the sweet to perfection he is summer or winter. Jack spends all his spare time, and the same is to be seen, in a favorite alone at the Y. W. C. A. It might be that he has heard of that "Yellow who ate at the Y till she was small house because he was afraid to go home in the dark, so—maybe, there's another variation.

Removal of semi-civilized pieces are a must on Jack's shopping list, especially ones like the *Warner Concerto*. You weren't doing badly at all, bringing in the gay little music of the Delta Dear Garden at Fair, Jack.

This summer Jack plans to work for the telephone company as a crew supervisor. That's one way of getting the trade done.

Blushes are becoming, especially the tomato reds Jack puts on when caught saying a lawning thing at the right time. The next time you see Jack Schloerb, walk up to him and discover for yourself what a fascinating personality he is.

Married students who previously have had to miss Portland's social events because "there's no one to stay with the baby" will be pleasantly surprised with arrangements for the coming Engineers' Dinner at the University. The dance com-

mittee has his upon the novel idea of providing a "baby sitting service" for the event.

So reads from the College of Nursing have been engaged to set up a "night nursery" where the married couples may deposit their small charges while the dance is in

progress. The nursery will be complete in every detail, with fresh warm milk, fresh warm coats and fresh warm diapers provided.

"Yes," said a committee chairman for the dance, "we're doing everything. But the children must be under 18 to be eligible for care."

## "Remember Mama"—Opens Tonight

### Moving Up Day Promises To Be Best In Years

Moving Up Day 1947—the last for many years—has been the first for many years—will transport us for the usual realm of class, meetings and sports on a day filled with fun and with new experiences—and to a day that makes us conscious of the progress of time and the ever-growing accomplishments of students in a college community.

The day's fun will start at 12:30 o'clock with the assembly program. The big excitement will begin immediately—the crowning of our Queens who will reign supreme over the rest of the year. Who is our Queen? Speculate until next Friday! With our Queens reigning over the rest of the assembly, the awards will be given, gifts will be presented to the college and the new class officers will be installed. Then we really DO move up. Freshmen! We exchange our class flowers for that of our new class in a ceremony which is a State tradition.

But the assembly is only the beginning! For the first time in many years, we are able to have a Moving Up Day Parade. About fifteen different organizations will participate with colorful floats representing activities and situations of college life. At 2:00 o'clock, the parade will assemble in the parking area and will follow a route south on Elmwood to Lafayette, east on Lafayette to Lincoln Parkway, north on Lincoln Parkway to Forest west on Forest to Elmwood, and then back to the college. The parade will then proceed around the college drive, where the judges will choose the first, second and third place floats.

Awards will be presented to the organizations sponsoring the winning floats in front of the main building.

After the sports program begins at 3:30. Are you exhausted? Well, take a deep breath—the day isn't over yet! The climax is the Class Ball which will be held in the gym from 8 to 11. It will be informal and FREE to everyone! Joe Farrell will provide the music, Della Blue Band is general chairman of the dance.

### NOTE

Will all students who made application to try the co-examination for analysis this spring, please sign a list in the Registrar's office as soon as possible.

"Remember Mama," a Broadway hit produced by Casting Hall and starring Mary Frances Hackford, will be presented tonight and tomorrow in the college auditorium at 8:30 p.m.

The two act comedy, a Rogers and Hammerstein II production by John Van Deuren, is an adaptation of Kathryn Forbes' book, "Mama's Bank Account." It is being produced at State under the general chairmanship of Dr. Dougherty and under the direction of Miss Gosselin.

Winning popular acclaim as well as the much-cited for critical approval on Broadway, "Remember Mama" is expected to be one of the best productions presented at the college's annual Spring Play. The audience will find it hilarious and deeply moving, entertainment as inspired by the dramatic talent on campus.

Many settings and "props" were necessary to fill the demands of this elaborate production. The Casting Hall group has had to put forth much group and effort to make the play a highly effective production.

"Mama" controls the family and, incidentally, the family bank account. She's the driving force, the "Big Guy." The play is a characterization in a Norwegian family setting of "Mama" and her rela-

tives: the aunts, uncles, daughters, and even the family cat. "Mama's relationships with the other members of the family bring out married women and human emotions. Theatre-goers will be dazzled with Mama, Karen, Aunt Trina, Papa, and the rest of the family.

All college students will be admitted free of charge, under the Blanket Tax, at any performance. Public admission will be 60c. Tickets will be on sale today from 11:30 to 1:30 in the student center and will be sold in the foyer before the performance.

Don't miss "I Remember Mama." The cast includes the following: Mama—Mary Frances Hackford; Papa—Richard Mitchell; Aunt Trina—Ruth Bailey; Aunt Trina—Shirley Conway; Aunt Jenny—Judy Frost; Aunt Sigrid—Virginia Kuhn; Christine—Nancy Berger; Uncle Christ—George Wyatt; Aunt "Tippy" Parnum, S.P.; Dagny—Miss Dagny; S.P. Mr. Hyde—James Gardner; Nola—Donald Lamp; Mrs. Thorsen—Bill Lert; Dr. Johnson—Raymond Barrett; A nurse—Arlene Herlihy; Another nurse—Carol Chaudhury; Soda clerk—Joseph Beebe; Madeline—Phyllis McCausland; Dorothy—William Berry; Florence—McDonald; Sally Abbott—A woman—Carol Jorgensen; (Cost on page—14)

## International Relations Club

The I.R.C. held its monthly meeting, May 7th in social center. A. Lavette Barry was chosen chairman and the topic was *What Is Happening To The British Empire?* After the discussion a punch party was held marking the close of this seasons activities. The chairman announced that the club will resume its activities in September and new members will be welcomed then.

Anyone who has ever taken a composition course from Dr. Holman will never forget the vehemence and positiveness with which he imparts his opinions with the idea of "two-valued orientation." Regardless of what issue was being discussed, students never got away with calling anything simply "black" or "white." There are a multitude of varying shades in between.

Goodbye and Good Luck to Dr. Holman!

The Record will lose a competent advisor, the English staff a valuable instructor, and the student body a good friend when Dr. Alfred E. Holman, Jr., leaves us at the end of this semester to become head of the English department at State Teachers College at Trenton, New Jersey.

Dr. Holman is probably as well suited to his chosen profession as anyone could be. He enjoys teaching and likes to work with students and teachers alike. He said, in addition, "I am as much interested in education and the educational process as in the academic subject matter."

Nor are his interests confined to the campus. He and Mrs. Holman attend the theater as often as possible. He is an avid reader, whose favorites are among the modern authors and playwrights—Hemingway, Strindberg, and D. H. Lawrence. The Holmans have also a small record collection, with the accent on Shakespeare, Prokofiev, and Schubert.

Photography is another of his favorite pastimes. Anyone who has ever been in the English office will no doubt have noticed the pictures of his two children above his desk. He has also taken some pictures of the college for publicity.

That Dr. Holman is an extremely busy man—and anyone who has ever tried to find him can vouch for that—is can be shown by the fact that when I tried to interview him, he had only five minutes to spare, and that, only if I would ride part of the way down Elmwood Avenue with him while he was on his way to play golf.

## Mammoth Parade Will Climax College Moving-Up Ceremonies This Afternoon

### Plans for Gridiron Competition Taking Form

On Wednesday, May 14, before a gathering of over 250 people, the Buffalo Record will present what fulfilled the dreams of State's ever expanding sport program. The Buffalo Record announced that in the near future, Buffalo State would be represented in collegiate circles, not only in swimming, basketball, soccer and tennis, but also in football.

The occasion for this announcement was the annual Block S dinner. At this dinner tribute was paid to the athletes of State. Not only were the current team honored but the past athletes who had worn the orange and black on the field of sport in past seasons. The most resounding praise was heard when one of our faculty members stood up to make a low. His words—those of the recipient constituted for the athlete, but more important he represented the past City Championship team. He was Mr. Graham, class of '15, who played with the victorious team of 1936.

Dick Fisher, in the role of Master of Ceremonies, introduced the delegates of the neighboring colleges. From Niagara came "Taps" Gallagher; Canisius sent Earl Dawson. The University of Buffalo sent Harry Shifano and Dr. Bonamere. The University of Buffalo sent Harry Shifano and Dr. Bonamere. The University of Buffalo sent Harry Shifano and Dr. Bonamere.

### Dr. Wofford Receives Double Honor For Book

Two honors have recently come to the book "Teaching in Social Studies" by Professor Leo V. Wofford. It was published by Macmillan in April, 1946. According to an article in the current issue of the N.E.A. Journal, the book has been selected as one of the outstanding educational books published in 1946. Professor Wofford has had a letter this week from the War Department requesting permission to translate "Teaching in Social Studies" into Japanese. Said the letter, "There is a great need for a book in Japanese on modern elementary education. The lack of democratic education in Japan is a great need. Such material is almost impossible."

## From The Editors

The past year has been a memorable one for *The Record*, we and the staff have naturally endeavored to make *The Record* what you want to read. Actually we have not completely succeeded. There is still much to be improved, since as yet we do not reach all organizations. This year we have improved our editorial and managerial staff. This system, we believe, may be the most efficient method of teaching the students body and improving the standards of the Record.

Your editors for next year are full of enthusiasm and desire to help us tag you to cooperate fully in the future.

It has been enjoyable to work with and for the student body. Here's to the continuation of your fine cooperation!

## Letter To The Editor

Dear Editor:  
I am keeping abreast with current times, the college is extending and broadening its activities. One of the latest successful endeavors is the showing of movies to the student body.

Those who were present at the showing of "The Informer" were interested in their praise of such an undertaking. This Friday, "Carnival in Paradise," a French Academy Award film, is to be shown.

Congratulations to the Dramatic Club, instilling such a gratifying interest. This visual medium of learning, more potential in integrating courses in the curriculum such as dramatic, English, social sciences. They are invaluable in teaching the material more meaningful to the students.

It is hoped that this practice will continue next year and that films of the same quality will be more frequently shown.

Philip Tenney.

## Goodbye, Dr. Thurber

Completing a 35-year career in the teaching of English, 17 years of which were spent on the faculty of Buffalo State Teachers College, Dr. John Melvin Thurber will retire on June 30, 1973.

Born in Guilford, Vt., on Mar. 11, 1882, Dr. Thurber attended Southbury High School and graduated in 1901. He was president of his class and captain of the football team.

Sunny Side Up  
by Thomas Kerswell

This column was originally started in the *Record* as a humorous column on international events. Yet, considering the serious nature of our preaching tolerance and trying to get across your message in politics.

We have, I hope, convinced you of the necessity for the spirit of tolerance in America and in the world. I believe that mankind's ideal of one world cannot be achieved while we have nations as they are.

While David greeted the guests and at the close of the program Mr. Boyd led the audience in community singing.

Slag on National Hook-Up  
On Sunday morning, May 13, on a program sponsored by the Newman Club, a Cappella sang to the entire session on a national hook-up over station WGR.

Archer Green accompanied at the organ. The message was delivered by Father Dempsey, moderator of the program.

There are those who say "I would government necessary?" This question is given with considerable emphasis at Hiroshima, Nagasaki and Bikini. Never before has man had the weapons with such awesome potentialities.

In 1931, Dr. Thurber, then a national secretary of the National Association of Teachers of English, was the first teacher-leader to establish the Alpha Delta Chapter at Buffalo State.

Dr. Thurber visited England in 1935. He traveled through the Southwest, Europe, the lake district, Rome and Italy. He was elected to Phi Beta Kappa and received his master's degree in English.

The highlight of the evening was the presentation of an engraved silver serving tray by Mr. Paul Coleman, representing the Alumni Association, to Lois Vastola, the most outstanding athlete of the year. After the presentation, Coach Cover introduced the guest speaker of the evening, Dr. James H. Crowdie, Graduate Manager of Athletics at Canisius College. Dr. Crowdie gave a fine talk on the role of sports in Western New York and throughout the nation. He is confident that we are entering a golden era in the Sports World which will surpass even the one which followed the last year.

Mr. Boyd directed the singing of the Alma Mater and the Rev. George Study gave the benediction. Dr. Crowdie was general chair man of the dinner.

"AND HAVEN'T CHANGED THEIR MINDS YET."

NEW CENTER puts extra liveliness in the Spalding and Wright & Ditson tennis balls.

In recent tests, both bounced consistently to the upper limits of USITA rebound standards — another reason why these Spalding-made tennis balls are first choice of most tournament players. Sharpen up your game with one of the Twins of Championship Tennis.
